-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Continued Examination Under 37 CFR 1.114*

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/2/2004 has been entered.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 6-11, 13-15, 18-20, 23-25, 29-37, 40-42, 44, and 45 are rejected under 35 U.S.C. 102(b) as being anticipated by Ishiguro et al. (JP 2000086064 A). Ishiguro discloses a sheet-shaped medium processing apparatus that includes a discharging means (73), a discharge tray (11), and arranging means (31/211) that slides in a concave portion of the discharge tray (see Figs. 12-13).

### *Claim Rejections - 35 USC § 103*

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 3 and 26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ishiguro et al. in view of Hoshi et al. (JP 62-8965). Ishiguro discloses all the limitations of the claim, but it does not disclose step shaped relief sections formed at the head of the arranging sections of the arranging members. However, Hoshi discloses a sheet sorting tray with step shaped relief sections (see Fig. 5) formed at the head of the arranging sections for the purpose of directing sheets toward the sheet arranging section of sheet arranging members (43a, 43b). It would have been obvious for a person of ordinary skill in the art at the time of the applicant's invention to modify Ishiguro by utilizing step shaped relief sections formed at the head of the arranging sections, as disclosed by Hoshi, for the purpose of directing sheets toward the sheet arranging section of the sheet arranging members.

***Allowable Subject Matter***

6. Claims 4, 5, 16, 17, 21, 22, 27, 28, 38, 39, and 43 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

7. Applicant's arguments filed 10/28/2003 have been fully considered but they are not persuasive.

8. The applicant states item 11 of Ishiguro is a "processing tray" rather than a "discharge tray" as required by the claim. In response, the examiner notes that the applicant has not defined the term "discharge tray" in any manner such that it does not read on Ishiguro.

***Conclusion***
